

Our Wind Co-op: Turbine #1

Peshastin, WA

Installed May 2003

*Beverly and Don Grim,
residents of Peshastin
Washington and Proud
Turbine Owners*

“We stand out there and take a look at the beautiful green turbine and feel like proud parents.”

“Bev has been the main impetus for the wind turbine. She has always been concerned about the environment, alternative energies and conserving.”

- Don

“I had always had the idea of being somewhat self-sufficient. Years earlier, I had set up a solar system in my other home. I planned to do that here until I heard about wind.

It was a daunting project. But we just kept going for it. And the wind is still blowing.”

- Beverly
